SELECTION extols minimalism and functionality while offering a unique visual experience and a pleasant touch. Its uniform visual identity, in accordance with the highest design standards, comes together in the ROUND version, with a more classic, yet extremely elegant aesthetic trend.

The SQUARE version of SELECTION opts for more restrained lines, with right angles, combining perfectly with the essence of the design of TECHNAL's aluminium work. A modern style, in line with a bold aesthetic, which also offers excellent manoeuvrability, adding a unique touch to any space.
