PASSION

In addition to a base with multiple colours, corresponding to the SAPA colour palette, this collection can be customised with a myriad of different materials to adapt even further to each project, achieving a unique and genuine finish. Among the materials available are wood, stone, brass, bronze, stainless steel and also unique aesthetics such as milled grooves.

PASSION

**/ MINIMALISM AND
MAXIMUM ERGONOMICS**

PASSION has been designed to be extremely ergonomic and adaptable, as well as having elegant aesthetics. As a result, the back of the handles is rounded, which provides an excellent grip and has a pleasant feel. This rounded design, along with the straight-line aesthetics at the front, create a uniform model that offers the perfect balance between functionality and maximum slenderness.

/ TEXTURE AND COLOUR

The handles in this collection are made of extruded aluminium, with a lacquered or anodised surface finish, and come in any of the SAPA range of colours.

/ A CUSTOMISABLE AND GENUINE AESTHETIC

Thanks to the customisation of the handles in this collection, projects reach the maximum level of exclusivity, allowing reinforcement of the brand image in any project, the uniqueness of homes or simply adding extra value to the design of a space.

This collection will be available on demand.
